2013 Issue 2

## Model Drawings and More Photos in **Revamped Website** @ [www.woodpro.com](http://www.woodpro.com)

We have now completed a dramatic upgrade to our website which includes Model Selection, Model Drawings and more Photos. **This new version is on an updated software platform, is completely database driven and shows the many product choices we offer, including down to the model level.**

There are more photos and the searchable database for photos makes it easier to add photos in the future. **Users are now able to search for photos by collection, major category (mirrored, vanity, storage, furniture, design pieces), door style and wood-color.** A slide show of a few of our best photos is at the home page. For a Collection selected, there is a slide show of collection photos.

### The main buttons at the top are:

- **Products** This section includes the selection down to the model level described below, plus a Quartz Top selection choice.
- **Gallery** A row of our best photos will be shown for each collection within cabinet series along with the photo search described above.
- **Personalize It** This section includes: Decorative Hardware and Custom Options.
- **Support** This section includes: Construction Features, Specifications, Installation Instructions, Product Care, Beauty of Wood and Warranty.
- **Find a Dealer** The Dealer Locator now includes a 3-digit Zip Code search in addition to the Telephone area code search.
- **About Us** This section includes: Why Woodpro?, Our Environment, About Us and Contact Us.

Dealer information from the Dealer Login at the bottom has not been upgraded in this phase.

**The left side bar** will make it easy to find what is desired quickly. The choices will be for Collection within Design Type (Traditional, Transitional, Contemporary, Craftsman) within Cabinet Series (Premier, Royale, Classic).

**When a Collection is selected**, a slide show of photos is shown along with choices for: Collection Standards (things like door & drawer hardware, light globe, edge profile and drawer front 1-piece or 5-piece), Door Styles, Wood Colors and Models. If Models is selected, the user can then quickly drill down through: Major Categories, Product Category and Cabinet Width to choose the model desired. All of the drill down choices include visual model drawings to aid the user.

**For a selected Model** the drawing of it is presented along with buttons for the selection of Door Style and Wood Color. Buttons are also presented for the user to see: Construction Features, Specifications and Installation Instructions for the Model.

Questions? Our knowledgeable Customer Service Staff is available Monday-Friday from 8 a.m. - 4:30 p.m. Central Time to answer any questions you might have.

Cabinet Depth Reminder . . . . .	2
Holiday Closings . . . . .	2

## CABINET DEPTH REMINDER

In our catalogs we state cabinet depth to the face of the cabinet, but this does not include the door and drawer fronts which add an additional 3/4". Based on this, **our vanities stated as 21" or 18" deep are in reality 21 3/4" or 18 3/4" deep to the face of the doors and drawer fronts.**

### Holiday Closings

Woodpro will be closed on  
**Tuesday, December 24, 2013**  
and  
**Wednesday, December 25, 2013**  
to celebrate  
**Christmas**  
Woodpro will also be closed on  
**Wednesday, January 1, 2014**  
to celebrate  
**New Year's Day**
