

# Optional Stainless Steel Bar Pulls

## Which sizes fit your cabinet?

Some of the optional Stainless Steel Bar Pulls are too large to fit smaller drawer fronts. This sheet helps you decide if the bar pull will fit on a slab or flat panel drawer front. (Flat panel drawer fronts include Shaker, Edgewood, Old Town, Ridgefield and Villa).

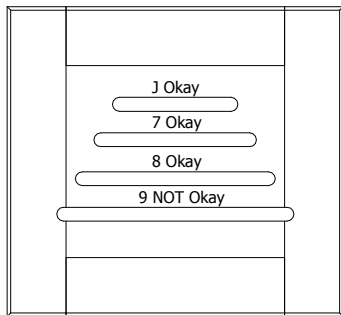

If you have questions about a cabinet's drawer front length or if Optional Stainless Steel Bar Pulls will fit on any of our other drawer front styles, please call Woodpro at 1-888-962-5332.
